

Environmental Policy

Policy Statement

Aroschy is committed to minimising environmental impacts from our construction activities and supporting sustainable work practices.

Scope

This policy applies to all sites where Aroschy operates, including residential, commercial, civil, and infrastructure projects.

Objectives

- Prevent pollution through responsible material handling and waste management.
- Reduce unnecessary use of resources such as water, steel, and energy.
- Comply with all environmental regulations and site-specific requirements.
- Promote awareness of environmental responsibilities among workers.

Responsibilities

- **Management:** establish systems and allocate resources for environmental control.
- **Supervisors:** implement site-specific environmental plans and monitor compliance.
- **Workers:** follow environmental procedures, minimise waste, and report incidents.

Review

This policy will be reviewed annually or when environmental legislation or site requirements change.
